Food

The bike

On our trip we use the Belarussian 125cc Minsk which is perfectly suitable for the roads of Vietnam. For more information about the Minsk, please view our Motorcycling Tips.

Homestay

Homestay in Mai Chau is simple in terms of bedding condition and amenities. We will stay overnight in the traditional house-on-stilt of the Thai people and, as the local do, we will sleep on bamboo floor with mattress, clean sheet, pillows and mosquito nets. Toilet is usually western style and some steps away from the house.

The motorcycling day

A typical motorcycling day starts at about 8.30 am after breakfast. Lunch times can vary depending on the distance. We aim to reach the next overnight stop by 4.30 or 5. During the day we will have short breaks for rest, snack and photographing.

ATA tour guide

The tour will be led by one of our tour guides who are experienced in guiding motorcycling tours in Vietnam. He has been carefully selected and trained in this field and is fully licensed in tour guiding by the government. In addition, he has been trained in first-aid by SOS International and he knows how to deal with difficult situations. You will have a great time traveling with him.

Holiday Extensions

Kayaking in Halong Bay: 3-day tour with 2-day kayaking and overnight on Chinese junk

The most famous place for kayaking in Vietnam. Kayak is also the best way to explore how beautiful Halong Bay is, to paddle through islets, to visit hidden caves, lagoons, unspoiled beaches, floating fishing village, to talk with local fish man. Thanks to thousands of islands on the bay, the water is calm, the current is fine, and the wind is not too strong are ideal condition for sea kayaking.

Angkor Wat Classic: 3 day tour of Angkor Wat by bicycle, tuk tuk or car

"The temples of Angkor were spiritual, political, cosmological, and astronomical or geophysical centers. They embodied and encapsulated the world spheres through which the Khmer culture and power structures moved, lived, breathed. In their scope and conception alone, they are among the most spectacular of human achievements."
